Relationship Between Fibre Length and Diameter

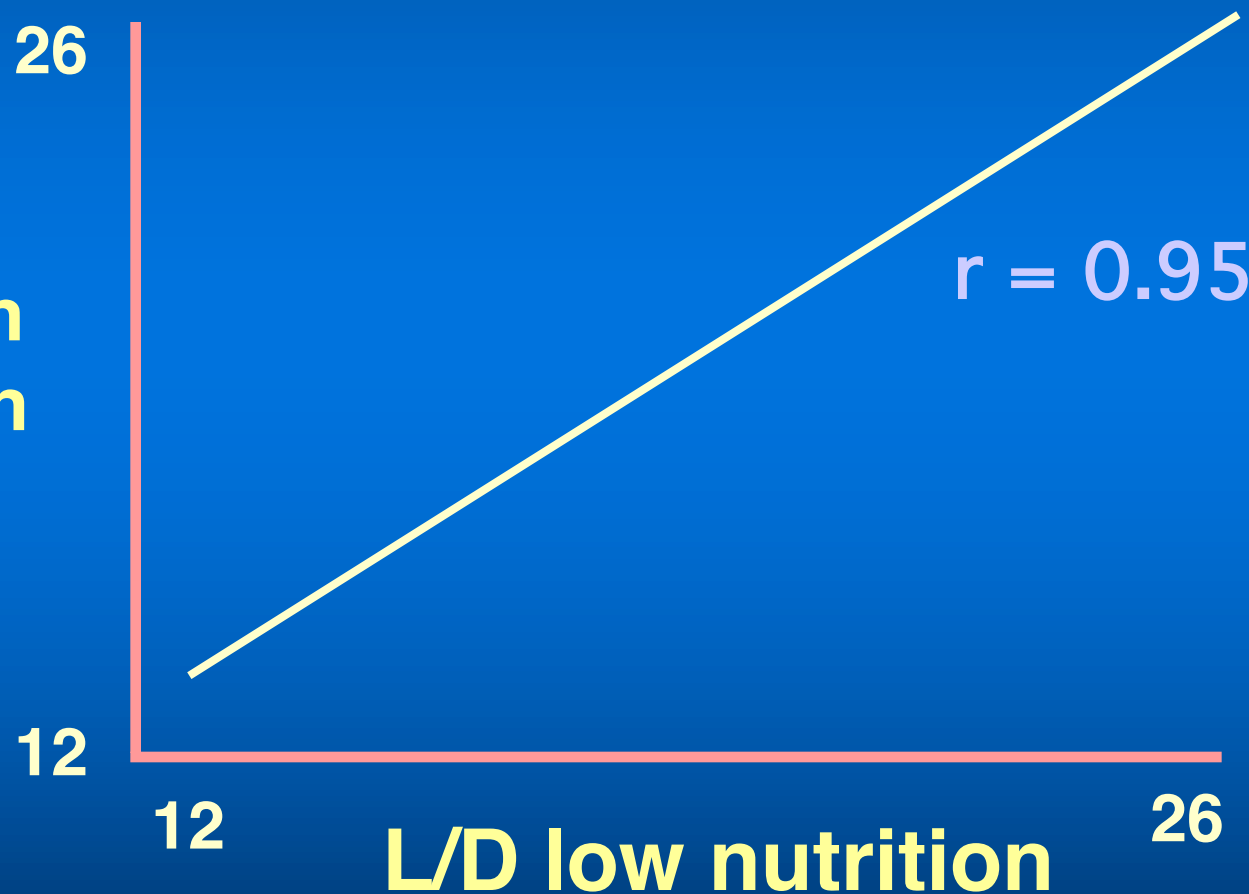

Produced for the CRC for Premium Quality Wool undergraduate program by;
Prof Phil Hynd, The University of Adelaide.

L/D does not change with nutrition

L/D is fairly constant but is slightly higher at high planes of nutrition

L/D high nutrition

But

L/D does change with the following:

	L	D
• cold stress	↓	→
• thyroid removal	↓	→
• cortisol injection	↓	→
• season	↓	→
• unbalanced amino acid supply	↑	↓
