Epidermis

Produced for the CRC for Premium Quality Wool undergraduate program by;
Dr. Janelle Hocking Edwards, The University of Western Australia.

Epidermis

stratified epithelium

layered

as opposed to....

muscle, connective, nerve

- superficial and continuous
- cellular material
- gives rise to differentiated structures

CRC

Quality

Wool

Epidermal replacement

- epidermal cells divide in the basal layer
- cells then migrate through the next two layers
- cells that reach the outer layer (S. corneum) harden and act as a protective barrier
